

2 HiHA Young Researchers Workshop

PhD

Hiroshima Research Center for Healthy Aging (HiHA)

:

Opening Remarks **Nasrullah Harino Al Ghifari**

Chair **Mohammad Mojarrad**

10:05 - 10:20 : **Gamal Nasser Abdel-Hady Abdel-Hamid** (D3)

Applications of a thermostable NAD-dependent phosphite dehydrogenase isolated from *Ralstonia* sp. strain 4506.

10:20 - 10:35 : **Nasrullah Harino Al Ghifari** (D2)

Characterization of Chemoreceptors responsible for recognizing amino acids in *Pseudomonas protegens* CHA0.

10:35-10:55 Coffee Break

Chair **Mohammad Mojarrad**

10:55 - 11:10 : **Parvaneh Emami** (D2)

3,3' Diindolylmethane induces autophagy and apoptosis in fission yeast.

11:10 - 11:25 : **Luo GongLinfeng** (D3)

Development of heat-permeabilized whole-cell catalyst based on psychrophile *Shewanella livingstonensis* Ac10.

Closing Remarks **Nasrullah Harino Al Ghifari**

2 11 24 (Tue) 10:00-11:30
