International Airport "Benito Juarez" in Mexico City, has two terminals connected by a monorail. Taxis can be found from both terminals; for safety we recommend using the "authorized taxis" which are charged in the airport and the rates are fixed depending on the distance. You can also use the Metro Public subway, although the latter is not practical when carrying lots of luggage. The average cost of a Taxi trip from the airport to downtown (35-40 min) is approx. $160 - $ 200 (MXN).

The International Airport of Toluca, also assists the International Airport of Mexico City. The airport is located 16 km from the center of the city of Toluca and 40 km from the Santa Fe Area in Mexico City. Buses and taxis connect the Toluca Airport to Mexico City. Also, there are buses heading-towards the bus terminal located at the "Observatorio" subway station in Mexico City.

For security reasons is recommended to use transport authorized by the airport.

Upon request, Exchange Students, could be received at the Airport in Mexico City and be escorted to their accommodation. They must inform the flight details at least two weeks in advance. The request should be sent by   U D J D U F L D F # L S Q   P [W F R Q W U H U D V # L S Q   P [
