広島大学ヘルシーキャンパス宣言

Hiroshima University's Healthy Campus Declaration

1. 大学における教育・研究・社会貢献活動の基盤として、学生・教職員の「心身の健康」を守ります。心身の健康増進により元気に学び・働く環境の向上を図り、教育・研究を一層推進します。

At Hiroshima University, we strive to protect the “physical and mental health” of students, faculty and staff as the foundation of all of our education, research and social contribution activities. To this end, we will improve the learning and working environment by promoting physical and mental health, which will in turn enhance education and research.

2. 「心身の健康」の研究を進めるとともに、予防の実践と健康増進を支援します。研究成果を社会に還元し、エビデンスに基づいた予防対策、予防教育などの実践を発展させていきます。

We will advance research on physical and mental health, and support the practice of preventative healthcare and the promotion of better health. Moreover, we will contribute our research results to society and develop evidence-based preventive measures and education.

3. 「心身の健康」を考え、大切にする文化を社会に発信し広げていきます。実践や研究で得られた情報を発信し、学生・教職員のみならず、地域等に応用できるよう、社会に貢献していきます。

We will disseminate information in order to broaden the culture of considering and respecting both physical and mental health. Furthermore, by disseminating information obtained through our practice and research to the wider community, we will not limit our resources to members of the university, but will contribute to society at large.
